## how to use the appliance

---

### Automatic ignition with flame failure safety device

The appliance is fitted with a flame failure safety device on each burner, which is designed to stop the flow of gas to the burner head in the event of the flame going out.

To ignite a burner:

- o Press in the control knob of the burner that you wish to light and turn it anti-clockwise to the maximum position.
- o If you keep the control knob depressed, the automatic ignition for the burner will operate.
- o You should hold down the control knob for 15 seconds after the flame on the burner has lit. If after 15s the burner has not lit, stop operating the device and open the compartment door and/or wait at least 1 min before attempting a further ignition of the burner.
- o After this 15-second interval, to regulate the flame you should continue turning the control knob anti-clockwise until the flame is at a suitable level. The operating position **MUST** be at a position between the maximum and minimum position.
- o To switch the burner off, turn the control knob fully clockwise to the gas off position.
- o In case of power failure, the burners can be lit by carefully using a match.

# Induction Hob Instructions

How do you work a Bosch induction hob?

## Using your induction hob

1. Switch the **hob** unit on at the wall (this may also require pressing a boost switch).
2. Place your **induction** pan on the **hob** ring you wish to **use**.
3. Hold your finger down on the power switch located on the appliance.
4. Start cooking by selecting the sensor which relates to the ring you wish to **use**.

How do I unlock my Bosch touch hob?

The **hob** is **locked**. To switch off: **Touch** the 0 symbol for approx. 4 seconds. The lock is released.

If your **hob** doesn't have a key button, press the P symbol for approximately 3 seconds to deactivate the childproof lock. If your **hob** doesn't have a key or a p button, press the L symbol for approximately 3 seconds to deactivate the childproof lock. It could be that you've activated the cleaning lock. 18 Sept 2018

Can you use normal pans on an induction hob? 

**Can I use a normal pan on an induction hob?** Induction hobs only work with **pots** and **pans** that contain ferrous metal in the base. To check if your **pans** will work, hold a magnet next to the **pan** base; if it attracts, the **pan** will work on **induction**.

Regular stovetops heat pots and **pans** through contact. If you place your hand, or a glass **pot on an induction cooktop**, neither will heat up because **they** are not magnetic and therefore not affected by the alternating magnetic field of the **induction** burner. 25 Mar 2021

**Please use the pans provided in your Lodge.**
